Subject: Mobilization tonight

Good Afternoon All

I wanted to let everyone know that we are anticipating a storm event tonight overnight. The storm event is predicted to meet all mobilization criteria. Mobilization is expected for this event. We are planning on mobilizing at the Clay Street location at 9:00 P.M.

Depending on length of overflow, we will be sampling anywhere from 4-6 hours. Specific hour by hour forecast for this storm event can be provided upon request.

Please let me know if there are any questions.
